

Jaguar Class News!

What we are learning:

English:

This term we will be focusing on two types of text: a recount and a narrative. We will be working on developing our writing style, by looking to add figurative language and to play with sentence structure to create impact in the writing. In reading, we will continue Cosmic, whilst also studying some Shakespeare and reading non-fiction texts on space.

Maths:

In maths, we will be looking at geometry, in particular angles. We will also be learning about position and direction, and then finally looking at converting between units of measurement. We will also be continuing to practise our arithmetic and developing our problem solving skills.

Science and Topic:

Our science topic this term is Space! This is always a topic which captures the children's imagination. This will involve learning about the planets, stars, and the moon. We will be looking to complete a moon journal over the last few weeks, so it would be lovely if the children could try and spot the different shapes of the moon at home. This science topic will also feed into other areas of the curriculum, such as English.

Our values this term:

Forgiveness and
Respect

Reminders:

PE will continue you be on a Monday and Wednesdays. Please can the children come to school in their PE kits on these days.

Homework will continue to be the same as previous years. This includes: TTRockstars, reading daily and practising spellings.
