

What we are learning...

Our learning this term continues to be about innovations and inventions. In history, we are exploring child labour during the Industrial Revolution, focussing on new laws passed in the era to protect the most vulnerable child labourers. In geography we are continuing to explore North America, in particular the USA. We will be investigating the rise of Silicon valley, California, and how major tech companies have driven mass economic growth in the area.

Science: We have lots of exciting science to investigate this half term. Our science topic is living things and their habitats, so we will be finding out about how we classify animals and explore the vast amount of organisms that we share our beautiful planet with.

Maths: Our maths learning this half term will involve building further on our knowledge of fractions before moving on, in the final week, to investigating measurement.

English: We are continuing to read Cogheart whilst continuing to explore a range of texts for our guided and independent comprehensions. Our writing will include a diary entry from the perspective of a desperate orphan living, in a victorian workhouse, a mystery story about a mysterious disappearance and a narrative based on the Titanium music video, by David Guetta.

Diary dates...

14th-20th November - UK Parliament week

Monday 5th December - Non-uniform day (children to bring chocolate for the chocolate tombola.)

Friday 9th December - Whole school pantomime trip, York Theatre Royal

Friday 9th December - Christmas Fair after school

Monday 12th December - Christmas crafts day

Thursday 15th December - Christmas lunch and Christmas jumper day

Friday 16th December - KS2 Christmas Carols 2.30pm (on KS2 playground)

OUR CHRISTIAN VALUES THIS TERM
ARE THANKFULNESS AND RESPECT.

ANGELOU CLASS NEWS

Information...

We continue to be impressed with the children's maturity and enthusiasm for all their learning.

If you ever have any queries or questions please don't hesitate to get in touch at:
e.priory@kf.starmat.uk

Children need to come to school in their outdoor P.E. kits every Monday and Thursday.

Children need to practise their times tables every week, through times tables rockstars. I cannot stress enough how important fluency in these key facts are for the new year 6 maths learning.

Please encourage your child to read at home. Reading for 20 minutes a day exposes children to 1.2 million words over a year, and supports all areas of children's learning.

I will be setting the spelling lists for the children on Sunday mornings and they expire just before school on Fridays. Please encourage your children to access Spelling Shed at least twice a week, there are lots of fun interactive games for them to be having a go at that will also help boost their writing capabilities.
