

What we are learning...

Topic: in several areas of the curriculum this half term we will be focusing on the polar regions and how they are changing, particularly in geography and science.

Maths: This half term, we will begin by focusing on addition and subtraction. After we have practised and perfected exchanging, we will move onto focusing on money - counting, comparing and finding the difference between amounts. Towards the end of the half term, we will be focusing on multiplication - making equal groups and arrays.

English: For the first few weeks of the half term, we will be focusing on writing setting descriptions for a chosen habitat (linking to our geography and science topics). After this, we will be writing a persuasive letter to the head teacher to reduce the use of plastics in school.

Science: This half term, our science topic is "Living things and their habitats" with a focus on the polar regions. The key scientist we will be focusing on is Ernest Shackleton

It has been a pleasure getting to know each of you over the past half term, thank you for your kind welcome to Kirk Fenton. If you have any questions or concerns, please don't hesitate to get in touch via my email:

t.carman@kf.starmat.uk
Mr. Carman

OUR CHRISTIAN VALUES THIS TERM
ARE THANKFULNESS AND RESPECT.

Information...

children need to come to school in their outdoor P.E. kits every Monday and Wednesday.

Please encourage your child to read at home and practise their times tables and spellings. Apps like Edshed, TT Rockstars, Duolingo and Numbots are encouraged to be used at home, please contact me if you need any login info to access these.
