

Recognise quantities to 5 without counting (subitise)

Look at an amount and be able to say how many without counting

Now try with quantities to 5

Things to try

Key Vocabulary

1, 2, 3, 4, 5

number

amount

quantity

total

altogether

... is the same as

- Look for where numbers are represented in amounts e.g.: on playing cards or on dice.
- Roll one dice (die) and say the amount.
- Roll a dice (die) and then grab a corresponding quantity of toys e.g.: toy dinosaurs.
- Notice small quantities as playing with toys - how many blue cars, etc.
- Hold fingers up and shout how many are held up.
- Look in places like fruit bowls and say how many. Then count to check.
- Play on Numbots. The subitising games are fantastic!
