Things to try

- Listen to songs and chants such as https://www.youtube.com/watch?v=6lti2YOzplw You could even create your own song! If your child creates their own song, this can make the times tables even more memorable.
- Use what you already know – If your child knows that 2 × 10 = 20, they can use this fact to work out that 3 × 10 = 30.
- Test the Parent – Your child can make up their own tricky division questions for you e.g. What is 30 divided by 10? They need to be able to multiply to create these questions.
