

## Appendix A Action Plans September 2024

Individual action plan follows, relating to the key aspects of accessibility. It is expected that significant progress will be made over the plans in the coming years, but we acknowledge that there will be a need for ongoing awareness and training for staff and governors in the matter of disability discrimination and the need to inform attitudes on this matter. Teaching methods and techniques will also develop over this period, which may create new challenges. Plans will be made in consultation with the student, parents and teaching staff. Appropriate training will be provided to enable staff to support particular students with accessibility issues.
